

Permission to Administer Non-prescription Medication

Northwest Allen County Schools allows the school nurse to administer non-prescription medication one time per day and up to three times per semester if parental permission has been given. This option is currently available to students in grades 9-12 only.

The parent/guardian signature below grants permission for the school nurse to administer:

- Two ibuprofen once per day as needed, up to three times per semester

This will remain on file for the current school year only. For additional medication after the limit has been reached, parents will need to send the medication with the Medication Permit Form found on our website: <https://www.nacs.k12.in.us/departments/health> .
