

MEDIA ALERT

FOR IMMEDIATE RELEASE

Lizette Downey (260) 637-3155
Chief Communications Officer

Turf rolled out, logos and lines being added at Carroll's site improvement project

Soccer field upgrades, concessions, marching band field and main field turf

WHAT: Carroll High School invites media for progress tour of its site improvement project that includes upgrades to soccer fields, marching band practice fields, and new parking lots, new practice soccer fields, new locker rooms for outdoor athletics, a new stadium, concessions, restrooms to support the marching band, football, track and other outdoor activities, along with campus traffic flow improvements.

Media will be led on a tour by Weigand Construction, an opportunity to observe mid-field logo turf installation and an explanation of the turf installation process.

WHO: Carroll and NACS staff; Stephen Torbeck, field consultant, MOTZ Group; Weigand Construction

WHEN: 11 a.m., Wednesday, Sept. 16, 2020

WHERE: Carroll High School – bus lot
3701 Carroll Rd.
Fort Wayne, IN 46845

Construction safety precautions will be implemented for visitors including high visibility vests, hardhats and safety goggles. Attendees will need to wear close-toed shoes on the construction site.

WHY: As Carroll High School has expanded its facilities over the years to accommodate growth within the district, improving the surrounding grounds and athletic/activity fields, parking and access need upgraded, too. This project will replace a football stadium that is original to when the school was built which dates back more than 50 years.
